FANTASTIC ENDLESS BREEZE FAN

Great for use in your horse trailer or RV, the Endless Breeze fan provides instant airflow when needed. Its fan has 3 speed settings allowing you to set the airflow at a comfortable rate while operating quietly. Operates on 12V only (comes with the plug & cord) & has a 12" 10-blade fan.

Specifications
Dimensions: 362H x 343W x 92D (mm)
Weight: 2.27kg

500-00082
FAN AND LIGHT COMBO (WHITE)

Suitable for use in Jayco Campers and Expandas, this reading light has a 2-speed fan. It has a 1/4" (6.4mm) jack which allows it to fit into an existing 12V internal light (such as 500-05004, 500- 05005, 500-05006 and 500-05007). There are also two plastic U-brackets on the rear/top that will clip onto a 3/4" - 1" (19.1mm - 25.4mm) camper support pole. Alternatively, it can be hung using the single U-bracket at the back to hang it vertically. Made in the USA to Australian and NZ standards, it also features a curly cord that extends up to 8ft (2.4mt) and comes with a globe*.

* You can replace this globe with a Coast LED, either 500-05758 or 500-05760 will fit.

Specifications
Power: 12VDC, 1.3A (max)
Dimensions: 250L x 145W (mm)

500-00200
SAFETY HUSH SMOKE ALARM

Ideal for fast flaming fires, the Hush Smoke Alarm is easy to install with no wiring necessary. It has a feature that enables the alarm to be switched off for 10 minutes in case of false alarms. It also has an ionisation sensing chamber which automatically resets once the smoke is cleared. This smoke alarm comes with a 9V battery which lasts approximately nine months. A warning signal will sound when the battery is running low.

SETEC DRIFTER

The Setec Drifter is an LCD display unit with the capacity to monitor up to four water tanks and a 12V battery. This means that you'll know when you're running low on fresh water or when your waste tank needs to be emptied (if you choose this as an option to monitor), all whilst observing your battery's status (current going in and out). It is compatible with any 12V lead acid battery, including VRLA, AGM, Gel and even the traditional non-sealed batteries.

The Drifter allows you to control your battery and water pump via a switch on the LCD display. It features all the handy gadgets like a clock and ambient temperature display. If that wasn't enough, it can be used as a nightlight and even has a built in USB charger for low powered devices such as iPods, mobile phones and MP3 players.

Specifications
DC Power Input: 8-15V DC, 0.7-0.35A
USB Output: 5V DC at 0.9A C-Tick Approved
Complies with IEC 61010-1, ED: 2001, CISPR 11:2009
Dimensions: 149L x 85H x 22W (mm)
Weight: 0.21kg

500-00749
SETEC DRIFTER WATER SENSOR TANK SET

The Setec Drifter, part number 500-00730 (above) comes with wiring for up to two tanks. You could choose to utilize this to monitor two water tanks or, one water tank and one waste tank. Should you want to monitor extra tanks, a Water Sensor Tank Set must be purchased (one set per tank).

ANBI SWITCH BATTERY ISOLATOR

The ANBI Battery Switch eliminates drainage of stored power by isolating the battery from power-hungry components like clocks, and general energy leakage. Installation is quick and easy and can be completed in less than 15 minutes.

Even when your ignition key is off, there are still components that draw current and continue to drain your battery. That's why it's common to find it flat when you to go to start a vehicle, like a caravan, classic car, or ride-on mower after it's sitting for an extended period of time. This is both inconvenient and costly as a completely flat dead battery can often become damaged if left uncharged for an extended period.

ANBI also provides a theft deterrent by virtually immobilising the vehicle when activated. This can result in significant savings on insurance premiums. Make sure your steed is ready to go when you are, install an ANBI Battery Switch today!

500-02120
ANBI SWITCH - BATTERY ISOLATOR

The ANBI Switch is a simple, high quality, robust solution to help you avoid flat batteries.
› 5 Year Warranty
› Simple installation
› Suitable for wide range of applications
› Proven anti-corrosive. Exceeds international standards for salt and sea spray.
› Accelerated life tested for proven durability
› Designed and manufactured in Australia

SPHERE™ WIRELESS LIGHTING CONTROL SYSTEM

The Sphere™ Wireless Lighting Control System is the way of the future. Easily installed on any flat surface, the system requires no drilling, no wires and no hassle—a simple lighting system at its best! How does the system work you ask? Firstly you will need the 6-Channel Receiver and a selection of Wireless Switches (whichever you feel is best for your RV setup). The Receiver will control the lighting for up to six individual zones in your RV e.g. the kitchen or the bathroom. A simple pairing procedure allows for multiple switches to be programmed to each zone and vice versa.

A master OFF function is available with all switches, enabling you to turn all lights off in all zones with one simple button. Alternatively, for a true wireless experience, the remote control can be purchased.

500-07132
SPHERE WIRELESS LIGHT SWITCH REMOTE CONTROL

A six button, multifunction remote control with six available channels enabling the user to tailor the system to their needs. The Remote Control is a handy accessory to keep in your pocket. If, for example, you have spent the day exploring your surroundings, with the Remote Control in your pocket, you can turn your RV lights on as you approach. It will work up to 50m away (provided nothing obscures the signal). Comes with a belt and clip for the user to wear when away from their RV.

CMS POWER OUTLETS

240v CMS Electrical products are not your usual fittings as they feature a soft-wire install with interconnecting leads instead of the hard-wire install of standard fittings. The advantage to this is that it is fast and simple to install or un-install as it is just a coupling connection to a lead rather than hard-wiring actual wire to connect the fitting.

AMP-FIBIAN RV-02MAX 15AMP TO 10AMP ADAPTER
The Ampfibian adaptor allows for a 15A load (e.g. that of a caravan) to connect to a standard household power point (10A). With upgraded features such as being waterproof to IP55, being able to accept leads up to 12mm in diameter and with a new H-Class rating, the Ampfibian is the safe option to connect to domestic outlets. It will automatically trip at 10A if the power outlet becomes overloaded. Designed and made in Australia, the Ampfibian comes with RCD and overload protection, as well as a two year warranty.

SPHERE PWM 12V/24V 40A SOLAR CHARGE CONTROLLER

The Sphere PWM Solar Charge Controller adopts an upgraded 3-stage PWM charging algorithm, which applies an equalizing charge to the battery periodically to prevent it from non-equalization and sulfuration, extending the battery's service life (with the exception of GEL and lithium batteries). Boasting an industrial grade design, the Solar Charge Controller is able to function in various tough conditions with TVS lighting protection.

> Advanced 3-stage PWM charging algorithm
> Overload, overcharge, and over-discharge protection
> Dot Matrix Graphic LCD Screen
> Multiple charging options for various battery types
> Automatically recognises 12V/24V system voltages
> User-friendly design with intuitive operations

BRIGGS & STRATTON GENERATORS

Lightweight and portable inverter generators are great for travel and recreational activities. To help ensure consistent power at any speed, DC power is produced and the onboard computer converts it to high quality AC output. This process helps maintain steady, accurate, and clean power output at a level similar to what you experience in your home. The PowerSmart Series™ Inverter Generators produce less than 3% total harmonic distortion making it safe for laptop computers, TVs and game systems.
